## July output edges up

North America car and truck production in July edged up 1,001 units, or less than 1 percent, from July 2010, to 827,684 units. It was the 21st consecutive month with an increase, although it is the smallest gain during that time. Car production fell 7 percent in the United States, rose 1 percent in Canada and fell 1 percent in Mexico. Total North American car output fell 4 percent. Truck output rose 2 percent in the United States, fell 21 percent in Canada and rose 35 percent in Mexico. Total truck production in North America rose 3 percent. Light-vehicle output fell 1 percent in the United States and 11 percent in Canada but rose 11 percent in Mexico.
